Jakarta

PROFILE

Experienced IT Developer in web applications, cloud, automation, and data integration. Proficient with .NET, Azure, Power Platform, and DevOps. Quick to learn, detail-oriented, and able to work well under pressure.

EDUCATION

Universitas Terbuka / Jan 2024 - Present
Information Systems: Semester 3

Politeknik Negeri Madiun / Sep 2019 - Sep 2022
Computer Control Engineering: Graduated with a GPA of 3.77
Final Project: Road Damage Detection System Using Tensorflow and Nvidia Jetson Nano

SMK Negeri 1 Slahung / Sep 2016 - Agu 2019
Computer and Network Engineering: Graduated with an average score of 8.7

EXPERIENCE

PT United Tractors / Jul 2023 - Present / **IT Developer**

- Application Development:
  - Built and maintained 5+ web applications or APIs based on .NET Framework, .NET Core, Blazor, and ASP.NET MVC, used by over 5,000 internal users across various departments.
  - Implemented business logic and integrated external APIs, resulting in increased business process efficiency.
- Database Management:
  - Developed and optimized Microsoft SQL Server by creating 30+ stored procedures and 10+ triggers for various applications, accelerating query execution and maintaining data integrity.
  - Performed query tuning to reduce report execution times.
- Power Platform Development:
  - Created 15+ automated workflows using Power Automate, reducing manual tasks and potential errors in routine processes.
  - Built 2 business applications with Power Apps to accelerate internal submission and approval processes.
  - Compiled and presented data with 2 Power BI dashboards used by management for strategic decision-making.

- Azure Management:
  - Managed 3+ cloud services in Azure Portal, including API Management (APIM), App Service, and Azure Blob Storage to support enterprise-scale application deployment.
  - Built and maintained 4+ DevOps Pipelines for automated deployment, resulting in faster application release times.
- SharePoint Administration:
  - Developed and managed 8+ internal solutions based on SharePoint for team collaboration and document management, increasing unit productivity.

PT United Tractors / Jan 2023 - Jun 2023 **/ IT Helpdesk**

- Microsoft Technology Support:
  - Provided daily technical support to 50+ users for Microsoft Power Platform applications (Power Automate, Power Apps, Power BI), ensuring smooth business processes.
  - Performed configuration and troubleshooting on 4+ Microsoft SharePoint sites, reducing user error incidents.
  - Ensured the operation of 7+ applications based on ASP.NET MVC, .NET Core, and SQL Server with downtime of less than 1%.
- IT Infrastructure Management:
  - Managed and monitored 10+ cloud services in Azure Portal, including Azure Blob Storage, API Management, and App Service, supporting smooth application deployment for the company.
  - Supported the management and maintenance of 2 DevOps pipelines, resulting in faster and more reliable deployment and release processes.
- Issue Resolution and Documentation:
  - Diagnosed and resolved 50+ tickets related to software, database, and cloud infrastructure issues each month, with an average resolution time of less than 24 hours.
  - Documented all troubleshooting processes in the internal knowledge base, increasing the efficiency of handling similar issues in the future.

ICT Resource Development Internship / JUL 2021 - DES 2021 / **DISKOMINFO MADIUN**

- Melakukan Survey Kebutuhan TIK dalam Kantor DISKOMINFO
- Membuat Tempat Sampah Otomatis Berbasis Internet of Things
- Membuat Aplikasi Android Untuk Mendukung Tempat Sampah Otomatis

PRO & PERSONAL SKILLS

Creative / Innovate / Serious / Team Work / .NET / SQL / Blazor / Javascript / Sharepoint / Power Automate / Power BI / Power Apps

CERTIFICATIONS & TRAINING

Bahasa Wajib Programmer: C# dan .Net Core / 2025
Ruang Kerja

Optimasi Pengolahan Data dengan SQL, Data Studio, dan RStudio / 2024
Ruang Kerja

DevOps Engineer: Menggunakan Tools DevOps / 2024
Ruang Kerja

Bahasa Inggris untuk Bisnis / 2024
Ruang Kerja

IT Support Google / 2022
Coursera
